**Subject:** RFI005 Queries on Employee Issues

Dear Junta Board (and Homeowners)

Please find attached a Request for Information (RFI005) on various Employee Issues, as we peel back yet another layer of the Junta Board onion.

We expect more wailing and gnashing of teeth as the Junta Board is sure to refuse to answer the questions, "especially as it touches on the workers that are so highly valued in Cabrera".

We pre-empt this predictable Junta Board excuse for not answering the questions by agreeing that the Junta Workers do a very good job in Cabrera. We point out that the questions are not aimed at the workers, but rather at the Junta Board's governance and management of employees and, of course, our finances.

Kind Regards

**OPEN CABRERA**
